

PROGRAM 3 GRADE RUBRIC_CSC 1300_Spring 2026

Course: CSC 1300 Spring 2026 Lecture & Lab

Criteria	Excellent	Needs Improvement	Poor	Criterion Score
Program Compilation	15 points Program compiles successfully with no syntax errors or warnings using -Wall and runs correctly with Makefile.	10 points Program compiles after minor correction(s) such as a missing semi-colon or small typo.	0 points Program does not compile or Makefile not functional.	/ 15
Filtering & Display Logic	20 points Correctly prints the first 10 earthquakes with magnitude ≥ 4.5 and all earthquakes that caused a tsunami. Output matches formatting requirements and is readable.	10 points Partial output or minor errors in loop conditions or format.	0 points Missing filtering logic or output incorrect.	/ 20

Criteria	Excellent	Needs Improvement	Poor	Criterion Score
Use of Functions & Loop Structures	15 points Functions are implemented as specified and structured properly (download-DataFromURL, main with try/catch, range-based for loop).	10 points Functions exist but contain logic errors or are not fully utilized.	0 points Functions not implemented as required or main does all work.	/ 15
Makefile Setup & Execution	10 points Makefile paths updated correctly; make, make run, and make clean all work on system.	5 points Makefile exists but paths incorrect or commands partially work.	0 points Makefile missing or non-functional.	/ 10
Program Output Readability	10 points All output spelled correctly and clearly formatted with appropriate spacing and labels matching sample output.	5 points Minor spelling or spacing issues affect readability.	0 points Output unclear or disorganized.	/ 10

Criteria	Excellent	Needs Improvement	Poor	Criterion Score
Documentation File (Prog3_documentation.docx)	15 points All four questions answered thoroughly and accurately: includes required screenshots, timestamp conversion, definitions, and real-world example. Answers are original and well written.	7 points Most questions answered but missing some details or screenshots.	0 points Document missing or mostly incomplete.	/ 15
Program Report Proof	5 points Program Report form completed and screenshot of confirmation (Prog3ReportProof) included in submission.	0 points	0 points No proof of Program Report submission included.	/ 5
Code Readability / Commenting	5 points Proper indentation, consistent style, and top comment block with file-name, author, date, purpose. Each function has clear comment block describing purpose.	3 points Minor issues with indentation or missing some comments.	0 points Poorly formatted or no commenting present.	/ 5

Criteria	Excellent	Needs Improvement	Poor	Criterion Score
Program is efficient and good programming practices were followed.	5 points No disallowed constructs (while(true), goto, exit(), try modifications, AI-generated code, etc.); citations provided for any external code used.	2 points Minor violation or uncited reference.	0 points Multiple violations or evidence of disallowed code usage.	/ 5

Total	/ 100
