Post-Course Experience

Post-Course Experience Survey

Time Requirement: under 10 minutes

Purpose: The purpose of the post-course experience survey is to measure growth in learning in the course and to determine the aspects of the course that contributed most positively to your learning experience.

Directions:

You will be asked about your comfort level with several topics and skills in this survey.

Comfort level refers to the extent of your ability to define, understand, explain, implement, and test.

Please rate your comfort level with C++:

Not comfortable at all

Slightly comfortable

Moderately comfortable

Very comfortable

Extremely comfortable

Please rate your comfort level with using the following in your programs:

Data Types

(int, float, double, bool, char)

Not
comfortable
at all

Slightly
comfortable

Moderately
comfortable

Very
comfortable

Extrem
comfort

	Not comfortable at all	Slightly comfortable	Moderately comfortable	Very comfortable	Extrem comfort:
Arithmetic Expressions & Operators	☐	☐	☐	☐	☐
Branching (if/else, switch, relational & logical operators, relational expressions)	☐	☐	☐	☐	☐
Loops (while, do-while, for)	☐	☐	☐	☐	☐
Functions	☐	☐	☐	☐	☐
Reference Variables in Functions	☐	☐	☐	☐	☐
Arrays	☐	☐	☐	☐	☐
Pointers (including dynamic memory allocation)	☐	☐	☐	☐	☐
C++ Structures (struct)	☐	☐	☐	☐	☐
Classes & Objects	☐	☐	☐	☐	☐

Rate your comfort level with the following:

	Not comfortable at all	Slightly comfortable	Moderately comfortable	Very comfortable	Extremely comfortable
Parallel processing: Computing where the operations within a program are being executed simultaneously (i.e., running on different cores of the processor at the same time)	☐	☐	☐	☐	☐
Distributed computing: Computing with a program that runs on multiple computers or that runs using data from a different computer (i.e., an online service)	☐	☐	☐	☐	☐
Event handling: Having a function that responds to an	☐	☐	☐	☐	☐

	Not comfortable at all	Slightly comfortable	Moderately comfortable	Very comfortable	Extremely comfortable
independent action (i.e., a mouse click)					

Rate each of the following based on how well they helped you learn in CSC 1300:

	Harmful - prevented me from learning	Did not help at all	Undecided (not sure if helpful or harmful)	Helpful	Extremely Helpful
Programming assignments in lecture	☐	☐	☐	☐	☐
Lab assignments	☐	☐	☐	☐	☐
Code examples provided in iLearn	☐	☐	☐	☐	☐
In-class practices	☐	☐	☐	☐	☐
Attending lecture class	☐	☐	☐	☐	☐
Lecture recordings	☐	☐	☐	☐	☐
Attending lab class	☐	☐	☐	☐	☐
Instructor office hours and tutoring provided by TAs	☐	☐	☐	☐	☐
Exams & preparing for exams	☐	☐	☐	☐	☐
Supplemental instructor sessions	☐	☐	☐	☐	☐
ZyBook homework assignments	☐	☐	☐	☐	☐

Out of the learning activities listed above (or any other experiences in class), what contributed most positively to your learning experience?

The CSC 1300 course goals listed in the syllabus are below. Rate if you agree or disagree with being able to meet these learning goals in CSC 1300.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
I am able to demonstrate problem-solving techniques.	☐	☐	☐	☐	☐
I am able to create algorithms using problem-solving techniques.	☐	☐	☐	☐	☐
I am able to write introductory-level procedural programs using C++.	☐	☐	☐	☐	☐
I am able to understand and demonstrate acceptable computer programming practices.	☐	☐	☐	☐	☐
I am able to evaluate, test, and debug computer programs.	☐	☐	☐	☐	☐

In this course, what specific changes or adjustments should be made to enhance the overall learning experience?
